TABLE OF CONTENTS

NO. 1. JANUARY 1947

Synaptic conduction to giant fibers of the cockroach and the action of anticholinesterases. KENNETH D. ROEDER, NANCY K. KENNEDY AND EVELYN A. SAMSON . . 1

Generality of the role of acetycholine in nerve and muscle conduction. T. H. BULLOCK, H. GRUNDFEST, D. NACHMANSOHN AND M. A. ROTHENBERG 11

Giant nerve fiber system of the crayfish. A contribution to comparative physiology of synapse. C. A. G. WIERSMA 23

Topographical representation of muscles in motor cortex of monkeys. HSIANG-TUNG CHANG, THEODORE C. RUCH AND ARTHUR A. WARD, JR. 39

The effect of sedatives upon delayed response in monkeys following removal of the prefrontal lobes. MARJORIE WADE 57

Effect of di-isopropyl fluorphosphate (DFP) on action potential and cholinesterase of nerve. II. T. H. BULLOCK, H. GRUNDFEST, D. NACHMANSOHN AND M. A. ROTHENBERG 63

Effects of potassium on the endplate potential and neuromuscular transmission in the curarized semitendinosus of the frog. SHEPPARD M. WALKER AND YVES LAPORTE 79

NO. 2. MARCH 1947

Decerebrate rigidity. ARTHUR A. WARD, JR. 89

Convulsive activity induced by fluoroacetate. ARTHUR A. WARD, JR. 105

Injury potentials along peripheral nerves in relation to histological structure. BROR REXED 113

Injury potentials at different levels of cross-section of spinal cord. A. LANGENSKIÖLD AND BROR REXED 121

Effect of afferent impulses on cortical suppressor areas. ERNST GELLHORN 125

Influence of suppressor areas on afferent impulses. S. H. BARKER AND E. GELLHORN . 133

Prolonged facilitation of synaptic excitation in sympathetic ganglia. M. G. LARRABEE AND D. W. BRONK 139

Effect of di-isopropyl fluorphosphate (DFP) on action potential and cholinesterase of nerve. III. H. GRUNDFEST, D. NACHMANSOHN AND M. A. ROTHENBERG 155

NO. 3. MAY 1947

Further localization and analysis of adrenergic synaptic inhibition. AMEDEO S. MARRAZZI AND ROSE N. MARRAZZI 167

Effect of parasympathetic drugs on the conditioned response. WILLIAM H. FUNDERBURK AND THEODORE J. CASE 179

Acetylcholine and neuromuscular transmission. MARIANNE FILLENZ AND MARY HANAFIN 189

Acetylcholine and synaptic transmission in the spinal cord. J. C. ECCLES 197

Differential spinal block. III. The block of cutaneous and stretch reflexes in the presence of unimpaired position sense. STANLEY J. SARNOFF AND JULIA G. ARROWOOD 205

Viscosity changes in axoplasm under stimulation. JULIAN V. FLAIG 211

Electrical activity in frog spinal cord. J. TEN CATE, W. G. WALTER AND L. J. KOOPMAN 223

Inhibition of cholinesterase by di-isopropyl fluorophosphate, physostigmine and hexaethyl tetraphosphate in the roach. L. E. CHADWICK AND D. L. HILL 235

NO. 4. JULY 1947

Electrical investigation of the monosynaptic pathway through the spinal cord. C. McC. BROOKS AND J. C. ECCLES 251

Cerebral regulation of motor coordination in monkeys following multiple transection of sensorimotor cortex. R. W. SPERRY 275

Single fibre analysis of inhibition and the polarity of the retinal elements. BO GERNANDT AND RAGNAR GRANIT 295

Colour sensitivity, contrast and polarity of the retinal elements. BO GERNANDT 303

The projection of the frontal lobe on the hypothalamus. ARTHUR A. WARD, JR. AND WARREN S. MCCULLOCH 309

Respiratory effects from stimulation of the afferent vagus nerve of the monkey. OSCAR A. M. WYSS 315

NO. 5. SEPTEMBER 1947

Potentials from motor roots of the crustacean central nervous system. C. A. G. WIERSMA AND WILLIAM SCHALLEK 323

The vestibular nuclei as an excitatory mechanism for the cord. L. M. N. BACH AND H. W. MAGOUN 331

An interpretation of spinal cord action potentials in terms of volume conductor theory. GORDON M. SCHOEPFLE 339

A study of the effects of anaesthesia and asphyxia on the mono-synaptic pathway through the spinal cord. C. McC. BROOKS AND J. C. ECCLES 349

The electroencephalogram after prolonged brain asphyxiation. A. VAN HARREVELD 361

Autonomic and somatic reactions induced by stimulation of the cingular gyrus in dogs. WILLIAM F. KREMER 371

NO. 6. NOVEMBER 1947

The small-nerve motor system to skeletal muscle. S. W. KUFFLER AND R. W. GERARD 383

Function of the frog's small-nerve motor system. S. W. KUFFLER, Y. LAPORTE AND R. E. RANSMEIER 395

Further observations on the spreading depression of activity in the cerebral cortex. ARISTIDES A. P. LEÃO 409

Tectal and bulbopontine eyelid reflexes and mechanism of the sleeping attitude of the acute thalamic pigeon. GIUSEPPE MORUZZI 415

Reflex development in the chronically spinal cat and dog. GRAYSON P. MCCOUCH 425

Mechanism of nerve conduction block produced by anticholinesterases. J. E. P. TOMAN, J. W. WOODBURY AND L. A. WOODBURY 429
